Customer Complaints — In Their Own Words

review	Year	Month	sentiment
"I ordered some products 4 days ago. They haven't been shipped yet, and there are no other details."	2026	March	Negative
"WARNING: Do NOT order from dot and key app! either order same products from other sites. may be its better option from my overall opinion..i didn't got my order yet 😞😞😞Horrible experience, zero reliability! Ordered multiple times, products vanished into thin air 🤬. Over 20 days and counting, still waiting for my order. Customer care is a joke - 'wait 24-48 hours' is their only line 😞. Automatic returns? Ha! Don't waste your time or money 🤬."	2026	March	Negative
"Your delivery service is very poor. My order has already been delayed for 7-8 days and there is no proper response from your side. In my area, the product is showing stuck for 3-4 days but still not delivered. Please improve your service and respect your customers' time." 🤬🤬🤬🤬🤬🤬🤬🤬🤬🤬🤬🤬	2025	August	Negative
"I used a Dot & Key product for 3 months, but I got a lot of pimples on my face — even in areas where I had never had pimples before. My skin is dry and sensitive, and this product did not suit me at all. It actually damaged my skin. I would advise everyone who has dry and sensitive skin not to use this product."	2026	March	Negative
"Very poor experience. Delivery took 16 days with wrong status updates like 'Consignee Not Available' even when I was available. No proper communication and constant delays. Extremely frustrating service. Not recommended at all."	2026	April	Negative

Real customer voices reveal a pattern — delayed deliveries, missing orders, and unresponsive support are the top reasons customers are losing trust in Dot & Key
